DESCRIPTION

LP0808 and LP0808D are designed for surface-mounted applications. Its sleek, architectural form makes it suitable for use as a decorative lighting element or as an integrated part of architectural designs.

LP0808-1 and LP0808-1D are recessed or mud-in aluminum profile, designed to blend seamlessly into walls and ceilings. Whether in linear, angled, or custom patterns, it lets you play with light lines—as wide and as long as your design demands.

LP0808C is corner surface mounted profile which offers a clean, architectural lighting solution for shelves.

Perfect for both residential and commercial spaces, these profiles bring a modern, minimal lighting touch without visible trims or frames.

Available in 10' lengths, a variety of colors, and diffuser options, they are the ideal solution for bold, creative, and clean lighting integration.
